

## Using your WV Library Commission Library Card

This card is good for accessing a large collection of e-books and audio books on your smart device or on a PC or laptop. You need to download the free Overdrive app onto your phone or tablet to read or listen to books on that device. Stop by the library with your device and Mrs. Matheny will help you get it set up. You can access your account and look at the collection of books at <http://wvreads.lib.overdrive.com/>. All you need is the number off your library card and the name of your library, in this case, it is the WV Library Commission. There are thousands of books in the collection and you can access them all summer long with no fees. Stop by the school library for more details!
